OUT NOW ON CELEBRITY LIFESTYLE RECORDS!

Following the sold-out single – Legends, the eagerly awaited debut CD is at last released on Celebrity Lifestyle Records. 11 intense tracks filled with energy, buried in a dense mix of post punk, kraut and electro. It's punk, but the members roots in house music, makes it more fitted for a crowded dance floor. Be prepared...

1999 was formed in Stockholm by memebers from the mythical short-lived group – Audionom. The anarchy from Audionom is still present, but instead of relying on improvised noise, 1999 creates intense kraut infected songs, with dark cynical lyrics about life. The first single Legends was released 2004 and 1999 has since then, been playing at various spots in Sweden. Live, 1999 grows to a total visual experience, using video-projections, smoke and noise to create something that feels both creative and destructive at the same time. During the recent two years the members have been working hard with the debut record: Nineteenninetynine.
