Get ready and tune your brainwaves to the black hole of rock music and prepare for a transcending experience. Fear of heights? Don't panic, the punching beats will snatch your body back to the ground. Maximum physical influence makes this the perfect backbeat to your favorite wrestling home party.

This is the third full-length album from Sweden's terror-synth-muscle-dub duo – Pistol Disco. Taking another path from the noise drenched territorial trademark of previous albums. Keeping the intensity and refining the white Gaussian noise into epic schlager-noise tunes that grinds its way through your head. This is Pistol Disco at their most accessible and high fidelity sounding album yet.
